

National Digital Orthoimagery Program Committee FGDC Subcommittee 2016 Report

Shirley Hall
Farm Service Agency
Washington, DC

National Digital Orthoimagery Program Committee

- Established in the mid 1990s and annexed as a FGDC Sub-committee in 2008.
 - Develop, promote, and execute a national strategy for acquisition and development of orthoimagery data for Federal agencies
 - Create and utilize partnerships with State, local, tribal, and private organizations.
- Members represent 14 Federal Agencies and the National States Geographic Information Council.
- NDOP hold 2 face-to-face steering committee meetings each year and various working group telecons/webinars throughout the year

NDOP – 2016 Leadership

Steering Committee Chair –

Tony Kimmet, NRCS
